

Kidney, Thyroid, Adrenal, Bladder™

for healing the body naturally!

Kidney, Thyroid, Adrenal, Bladder™ patch is a product that was developed as a complementary therapy program that is accepted by Doctors and Practitioners as an aid to support and restore the body's energetic function.

Made in the U.S.A.

Kidney, Thyroid, Adrenal, Bladder Imbalances

The kidneys filter the blood, so important is it that the primary function of the kidneys is to help maintain its quality by constantly filtering it, to remove toxins and other unwanted products. The adrenal glands which are located on top of each kidney are responsible for many processes in the body. When functioning correctly, they produce various hormones that trigger chemical activity in every system. Energetic support for the bladder has been added to enhance the overall function of the urinary tract system as a whole.

The thyroid is a gland in the front of your neck. It controls your metabolism, which is how your body turns food into energy. It also affects your heart, muscles, bones, and cholesterol. Having too much thyroid hormone can make a lot of things in your body speed up. Having too little thyroid hormone interferes with the body's ability to perform normal metabolic functions. The Kidney, Thyroid, Adrenal, Bladder app is designed to naturally balance the function of the glands above while lending extra support for the pituitary and hypothalamus. This app can help you feel better while you and your doctor decide what your treatment should be.

The patch is made to rapidly promote and activate the necessary resources to optimize body and brain function, restore missing cell communication, and accelerate the body's natural ability to heal itself.

Kidney, Thyroid, Adrenal, Bladder™

Instructions: The Kidney, Thyroid, Adrenal, Bladder, (KTAB) is to be applied to your body (left shoulder).

The app was developed to relieve some of the symptoms associated with glandular imbalances.

Made to last for 3 days, then discard.

Apply another app and wear it for additional 3 days to boost glandular imbalances.

Repeat this procedure for 30 days to extend the therapy.

If needed, continue with procedure for an additional 60 days.
