

for healing the body naturally!

Nerve Stim, (nerve stimulation) patch is a **NON-DRUG** product that was developed as a complementary therapy program that is accepted by Doctors and Practitioners as an aid to support and restore the body's energetic function.

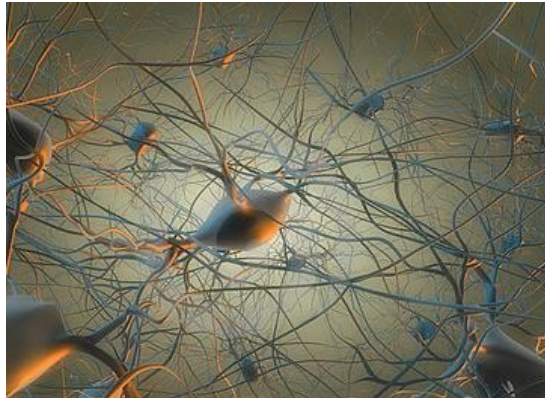

Made in the U.S.A.

The Nerve Stim provides bio-frequencies that support the healing process of nerve damage and encourages rapid bone healing and tissue growth. The nerves look like elongated bags of salt water and carry messages from the brain to the muscles and from the muscles to the brain. The outside of the nerve is positively charged to carry the electrical signals from the brain. The nerve is depolarized when a message is sent. Use The Nerve Stim when experiencing: Restless Legs Syndrome (RLS), Acute Pain in the Body, Trauma from Injury, Fracture of any Bones, and any Nerve Injury.

These Apps have been tested extensively and proven by the many that has experienced them to promote improved healing.

The patch or 'bio-apps' are made to rapidly promote and activate the necessary resources to optimize body and brain function, restore missing cell communication, and accelerate the body's natural ability to heal itself.

Also experience these Therapy Apps that address:

- ✓ Stress & Anxiety
- ✓ Depression
- ✓ Digestion Difficulties
- ✓ Pain & Inflammation
- ✓ Sleep Disturbances
- ✓ Allergies
- ✓ Female Hormonal Issues
- ✓ Athletic Enhancement
- ✓ Weight Loss
- ✓ Anti-Aging
- ✓ Immune System Concerns

Proper Placement

Place Nerve Stim patch on the left shoulder of the body. The left side of your body accepts energy far better than the right side. Please follow directions that are stated below for best results.

The Nerve Stim™

Instructions: Nerve Stim patch is to be applied to your body, (left shoulder).

It was developed to promote healing process of nerve damage and encourage rapid bone healing and tissue growth. Made to last for 3 days, then discard.

Apply another patch and wear it for an additional 3 days.

Repeat this procedure for 30 days to increase the healing process.
